COVID-19 UPDATE

Monday March 16th, 2020

Dear GMSB Visitor:

As a result of the COVID-19 coronavirus pandemic, we are taking precautions to protect both public and staff health. The COVID-19 coronavirus pandemic now necessitates that we change the way we operate in the interest of protecting public health. We have no intention of temporarily closing. However, we must change some behaviours and practices as we adapt to the new normal, at least temporarily.

VISITING OUR OFFICE

- GMSB asks that if you are experiencing any fever or illness that you please do not attend at our office.
- GMSB asks that all deliveries to our office be delivered to the Drop Box located on the Christina Street side of our building (when possible).
- GMSB is only scheduling in office meetings when required or when permitted by individual lawyers.
- GMSB asks the public to attempt to use telephone and email to communicate rather than in person meetings when possible.
- GMSB reserves the right to seek disclosure from any person regarding their wellness with respect to the COVID-19 coronavirus prior to visiting our offices.
- GMSB requires all visitors follow requirements issued by the Canadian government regarding quarantine procedures.

We are implementing these measures in an abundance of caution with the hopes of reducing the expected spread of the COVID-19 coronavirus throughout Lambton County. We cannot control everything around us, but we can try to protect our staff, clients, and the public. We ask for your patience if these protocols are at first difficult to accommodate.

We will update these protocols as information regarding the COVID-19 coronavirus continues to evolve and as conditions change.

Support one another. Look out for one another. And wash your hands.

Sincerely,

George Murray Shipley Bell, LLP
